GYROCLASS

ACUMEN for your Office Filing

Tailored to your working procedures and environment

Flexible Fittings to suit your documents and methods : hanging or standing files, record cards, binders...

Ready for implementation of modern filing technique (colour coding, final digit, or software driven...).

Time and motion savings thanks to centralised document center.

When coupled with our software offerings, even more enhanced effectiveness : automatic addressing, location management, borrower traceability etc.

Data center Security by lock-up facility. Options for selective access by level and for fireproofing.

Applying Business ACUMEN to the fields of:

- Document Filing,
- Storage for the Workshop and the Warehouse,
- Automatic Distribution

to obtain:

Productivity, Reliability, Traceability and An Easy, Intuitive Workplace

GYROCLASS, a solution made to adjust to:

- Capacity requirements
- Peculiarities of your premises
- Procedures of work process
- Workplace comfort and ergonomomy
- Office landscapes

...helping you run your office and manage your documents.

Making the most of your office space with GYROCLASS

Use space efficiently by exploiting all the available height overhead. Up to 60 linear meters of filing collected into a single carousel with minimum footprint.

Machines can be adapted to your office dimensions (width and height constraints...) and for greatest functionality (e.g. workstation machines front and back - through floor...)

Ease of Use

The ergonomomy of **GYROCLASS** is a great improvement on conventional filing as it eliminates bending or climbing, and also reduces need to walk to access files. In the case of intense use, time & motion analysis shows highly improved productivity. The discipline imposed on filing through the adoption of this system also leads to better quality and reliability.

Melding into your Office Landscape

The **GYROCLASS** can be adjusted to fit the colour scheme of your Office environment.

Wooden tables and overhead lighting are standard as well as lockable bay doors, and keyboard in the table. Standard colours are light and medium grey, but a complete range of RAL colours is possible.

GYROCLASS Vertical Carousel
GYROCLASS Vertical Carousel

Options:

- Carriers for standing or hanging files
- Pull out drawers
- Fire proofing
- Acces control by password
- Multiple level access
- Pick to light
- Bar code & computer control

Operating Mode

A set of carriers in the **GYROCLASS** travel around the machine on a chain, bringing the requested document to the workstation bay, then leading the eye to the right position with a pick to light device.

	P150C mm	P150 mm	P160 mm
Depth mm	980	980	980
Height meters	2 to 8	2 to 7	2 to 7
Carrier Depth mm	340	400/420	400/420
Gross loading <small>= carrier weight + payload</small>	3770 Kg	5300 Kg	6000 Kg

Machine width adaptable from 1,7 à 3,7 m.
